The mission of this project is to provide travellers with a single page of complete, organized travel information and to demonstrate that it is quite possible to travel around Washington State without a car.

In the Winter of 1995 an elderly Japanese woman sat down at my information desk. Her interest was the Salish People; she had come to Seattle just to see the world famous Makah Museum in Neah Bay. She asked me how to get there. I told her it was not possible without a car. She was very sad and returned to Vancouver. A couple of months later I discovered I was wrong. I was very sad. This project is dedicated to her.
